

Control what you spend on print, copy, scan and fax

PaperCut MF is a simple, low cost software application that lets you take control and manage your printers, copiers and multi-function devices.

PaperCut MF print management software has helped government departments reduce their print costs and environmental impact.

Going Green

Using PaperCut MF environmental impact reporting, print activity is converted to consumption data e.g. percentage of trees consumed. Users can view and make greener choices when printing.

Applying Your Own Print Policies

Good print management is more than replacing toner cartridges. Be proactive! Use PaperCut MF to manage printing and encourage sensible use with print management best practise.

Cross Platform Solution

PaperCut MF is the only print and copy management package that supports iOS, Windows, Linux, Unix and Novell with no additional modules or licensing costs.

Administering Centrally & Manage Easily

PaperCut MF is designed for automatic management. PaperCut MF can be setup and left running for months without any ongoing manual maintenance due to features like; Automatic user synchronisation, Auto report generation, User self-registration and automatic printer provisioning.

Family. Integrity. Trust.
